

# How to put lens caps on the cameras

## 1. Visit the PRE Annex and find the lens caps

You will find two “black” lens caps on the table.

## 2. Reach the top of the dome using the ladder.

The cameras are located in the southern dome. There are two cameras.

**3. Put the lens caps to the two cameras.**

**It is fine to just put the cap on the lens. You do not need to fix it with screws etc.**
